

Notice:

Upcoming Changes to Printing and Copying

The Manitoba Law Library is updating our current printing and photocopying capabilities.

Part of this change will be how fees are charged and collected.

Payment for using the printer/copier will be handled by the PaperCut online service.

Library users will be required to create an account which they will then be able to load with funds to pay for printing and copying services.

Jobs printed from library computers will be held in a queue until it is released by the user.

Starting early October 2020
